

# B.Com.(Actuarial Management)

Inception - 2006

Duration - 3 Years

## Unique Features of the Programme

The Actuarial Management programme offers unique features tailored to prepare professionals for the specialized field of actuarial studies. It is an essential discipline that deals with managing financial uncertainties, thereby aiding in decision-making minimize the probability of financial losses in insurance, financial and non-financial industries. The programme contributes to the holistic development of students pursuing their career in actuarial science, equipping them with the necessary knowledge and sk for success in the dynamic and challenging field.

## Highlights about the Curriculum

The curriculum is designed to provide well-rounded education combining mathematical and statistical approaches that strongly support students preparing for the Actuarial Common Entrance Test (ACET) and other actuarial exams conducted by the Institute of Actuaries of India (IAI). It caters to students aspiring for a strong career in the field of actuarial science.

## Expertise of the Faculty Members

Faculty members possess expertise in fields such as Actuarial Science, Mathematics, Statistics and other finance related disciplines. Their strong commitment to providing valuable insights and bridging the gap between theory and real-world application ensures an extensive and vibrant learning journey for students.

## Infrastructure – Libraries, Labs and Classrooms

Well-equipped classrooms with audio-visual aids for effective learning. Specialized computer labs are equipped with high-speed processors, ample memory, and relevant software such as Python, Statistical Analysis Tools (SPSS,R) and Business Application suites (Tally Prime), to ensure easy access to necessary tools for the academic pursuits of the students.

## Key Benefits

Students gain ample knowledge in areas such as insurance, risk management & analysis and finance through case studies, internships and projects, positioning them for diverse career opportunities as actuaries or risk assessors in the insurance industry and financial firms. They can also function in other MNCs as QA assurers, consultants, heads of analysis, etc.

## Student Life

Student life is a dynamic journey marked by academic pursuits and extracurricular engagement. Beyond the classrooms, students often find enrichment through participation in various clubs and activities. These extracurricular endeavors not only provide an avenue for personal growth but also foster a sense of community and teamwork.
