Research Articles

- Morphological and molecular characterization of *Gastrothylax crumenifer* (Platyhelminthes : Gastrothylacidae) infecting rumen of *Capra hircus* in Chandigarh (India)
Harpreet Kaur, Komal and Aditya Gupta 66
- Confiscation of Ni (II) from aqueous environs using treated bivalve shells
N. Shyamala Devi, N. Muthulakshmi Andal, K. Vivithabharathi and S. Charulatha 76
- Comparative study of physico-chemical parameters of different vermicomposted substrates produced by two different earthworm species
K. Chitrapriya, K.S. Abbiramy, K. Viswanathan and S. Asokan 82
- Food allergies in children (2-5 years) of Srinagar city, Jammu and Kashmir
Nayera Masoodi and Shafia Jan 88
- Molecular characterization of antibiotic producing endophytic *Bacillus subtilis* in cotton plants
P. Ahila devi, M. Magesh, K. Rajappan and V. Ravi 92
- GC-MS analysis of leaf and callus extracts of *Eupatorium glandulosum*
V. Nithya and M. Kamalam 99
- Evaluation of lipase from *Streptomyces variabilis* NGP 3 for detergent additive capability
B. Vishnupriya and K. Selvam 104
- Studies on pectinase production using microorganisms isolated from different fields
Radha Rani, Aditya Gupta and Sukhminderjit Kaur 110

Sorption characteristics of modified fruit shell onto Zn(II) ions in aqueous media <i>S. Charulatha and N. Muthulakshmi Andal</i>	115
Biosynthetic potential of endophytic <i>Pseudomonas fluorescens</i> against cotton wilt pathogen <i>P. Ahila devi, M. Magesh, K. Rajappan and V. Ravi</i>	120
