

Contents

Research Articles

- Green synthesis of silver nano-particles, their characterization and antimicrobial activity
Abhitosh Debata, Sandeep Dhuper, Darshan Panda and Ashutosh Debata 1
- Land use and land cover classification of individual and stacked satellite images using supervised maximum likelihood method
Manibhushan, Nilanchal Patel and Gadadhar Sahoo 9
- Synthesis, spectral correlation and antimicrobial activities of some 3-methylphenyl chalcones
D. Kamalakkannan, R. Suresh, V. Mala, K. Sathiyamoorthy, K. Ranganathan, R. Sundararajan, S.P. Sakthinathan, R. Arulkumaran, S. Vijayakumar, G. Vanangamudi and G. Thirunarayanan 14
- Exploring the interaction of polyethylene with oxygen molecule - A Quantum chemical study
G. Praveena, M. Agalya and K. Nandhini 25
- Seed production of *Daucus carota* (Linn.) in silvi-olericultural syste
Shubhangi Totey, G.R.S. Reddy and N.G. Totey 32
- Thermal properties of ambient ground fenugreek (*Trigonella foenum- graceum* L.)
S. Balasubramanian, Apramita Devi, Sakshi, K.K. Singh and S.J.D. Bosco 37
- Evaluation of phosphate solubilisation by *Burkholderia* sp. isolated from the rhizosphere of different crops
M. Sivaji, T. Keerthiga, R. Sridar and K. Veerender 43
- Yield optimization in pearl millet and sorghum under different crop techniques and agro-chemicals
N.K. Sharma 47
- The influence of the prosopis wood biochar on the soil fertility: an incubation experiment
S. Shenbagavalli and S. Mahimairaja 51
- Evaluation of newly designed iron chelates for rainfed rice
P. Stalin, D. Gayathri, D. Muthumanickam and T. Chitdeshwari 6
- Characterization of the cultivars of ginger for oleoresin content
Neeta Shivakumar and Pushpa Agrawal 67
- Isolation of cellulose producing *Gluconacetobacter xylinum* from fermented sugarcane juice
G. Gayathry and G. Gopalaswamy 72

Separation of Steroidal saponins from <i>Chlorophytum borivilianum</i> by high performance liquid chromatography <i>Arunabh Joshi, G. Rajamani and Vineet Kaswan</i>	78
Enzyme dynamics in the distillery industrial byproducts treated soil <i>P. Latha, P. Thangavel, K. Velayudham and K. Arulmozhiselvan</i>	81
Screening of white rot basidiomycetes for novel laccases <i>Vidya Pradeep Kumar, Chandrashekar Naik and Manpal Sridhar</i>	84
Actin mediated up regulation of GLUT-4 in response to aqueous leaf extract of <i>Aloe barbadensis</i> miller <i>Nishant Kumar Ojha and Anil Kumar</i>	90
Standardization of the Technology of <i>Thathiya</i> making <i>Chitralkha Beniwal</i>	93
Flowering distribution of some tropical perennial plants may follow a truncated normal distribution <i>Debabrata Das</i>	97
Adaptation of bacteria to multiple stress factors: A challenging area for investigation <i>M.K. Chattopadhyay</i>	100
