Research Articles

- Sonication assisted *Agrobacterium* transformation of banana cv. Ney Poovan shoot tips with GUS reporter gene
T.R. Usharani, H.D. Sowmya, S. Sowmya, C. Sunisha and P. Dhamodhar 85
- ARIMA versus State Space modelling: An application in agriculture
U. Verma, A. Goyal and M. Goyal 91
- Study on the screening, characterization and production of lipase producing bacteria from different oil mill wastes
Hema Saranya Ilamathi, S. Krishnaveni and R. Sridar 96
- Comparative analysis of length - weight relationship (LWR) of *Ompok bimaculatus* (Bloch, 1794) from six tributaries in the River Ganges Basin, India
P. Agnihotri, U.K. Sarkar, N.S. Nagpure, R. Mishra, R. Kumar, A. Pal, A. Awasthi, B.K. Pandey and N. Kumar 101
- Implication of induced systemic resistance in blackgram (*Vigna mungo* (L.) Hepper) by plant activator compounds
S. Parthasarathy, V. Jaiganesh, J. Rajalakshmi, R. Priyanka and A. Venkatesh 105
- Efficacy of *Dolichos biflorus* seed decoction in the management of Urolithiasis
M. Nithya Devi and M. Shajahan 111
- Studies on variability, correlation and path analysis in Sesame (*Sesamum indicum* L.)
B. MeenaKumari and K. Ganesamurthy 116
- Effect of virulence and methods of inoculation on the incidence of *Alternaria helianthi* leaf blight in Sunflower
P. Ahila devi, P. Latha and S. Mohan 121
- Hepatoprotective activity of methanol extract of *Ampelocissus araneosa* (Planch.) against paracetamol induced liver damage in rats
B. Uma Maheswari and R.S. Meerabai 127
- Antibacterial activity of aqueous extract of jackfruit seed flour, soybean flour and their blended flour against pathogenic bacteria
Neelam Chaturvedi, Divya Rawat and Simmi Chaoudhary 132

Effect of Cypermethrin on a freshwater fish, <i>Cirrhinus mrigala</i> <i>M. Lekshmanaswamy, K. Anusiya devi and C.A. Vasuki</i>	136
<i>Short communications</i>	
Studies on the effect of different organic substrates on the growth and sporulation of <i>Trichoderma viride</i> <i>Ranavay Kumar, Sanjeev kumar and J.P. Upadhyay</i>	140
Extraction of pigment from <i>Serratia marcescens</i> and its application in candle industry <i>Mansi Mehta and Gaurav Shah</i>	144
