Date: 30.01.2025

Venue: Chandra Seminar Hall, KCW

About the Department of Economics

The Department was started in 1963 with a strength of 25 students which has increased to an average of 200. In addition to UG and Research Programmes, the department has begun offering Post Graduation Programme in Applied Economics (M.A. Applied Economics) from the academic year 2024-2025. There are 8 faculty members in the department. The department is credited with regularly organising sponsored seminars, workshops, and conferences. It has raised funds from ICSSR & UGC for five minor projects and one major project. The Planning Forum is the Department Association that actively promotes students' multi-dimensional exposure.

About the Seminar

The Indian government has been focusing on energy access and transition to cleaner fuels as a major step in its journey towards a developed nation. The electricity mix by 2030 is targeted to be 50 percent from renewable sources (Statista, 2022) and a target of 175 Gigawatt (GW) of renewable energy is set to be achieved by 2026. India's effort towards attaining SDGs is evident from its pioneering in the International Solar Alliance (ISA) in 2015. The energy sector plays a significant role in the attainment of many SDGs. Substantiating this statement, a study has found that SDG-7 has the highest linkages with SDGs 12, 13, 14 and 15. Thus, focusing research on accessibility, affordability, and transition of energy becomes vital.

Objectives of the Seminar

- To explore the evolution, current status, conservation, future potential of the energy sector
- To throw light on the efforts taken by governmental bodies towards SDG 7
- To study how the energy sector development influences climate change
- To analyse the impact of the energy sector on women's empowerment
- To explore the recent trends and developments in the energy sector to attain Viksit Bharat

Sub-Themes

- The Ancient Indian Energy sector and its Evolution
- Household Energy Conservation
- Renewable Energy Adoption
- Eco-Friendly Consumption of Energy Sources
- Green Corporate Social Responsibility
- Green Transportation
- Clean Energy and Carbon Footprint
- Clean Energy and Green House Effect
- International endeavors in Energy sector
- Global and Domestic position and potential for Renewable Energy
- Energy Transition as a Sustainable Development Goal
- Energy Transition, Women Empowerment, Developed India
- Unclean energy fuels and Women's Health, Education, and Economic conditions
- Governmental Schemes for a Sustainable India
- Environmental Revival for a Sustainable Viksit Bharat @ 2047
- Disposal of Renewable energy wastes
- Recent Trends in the Energy Sector
- Artificial Intelligence in the Energy Sector
- Papers on other themes pertaining to the objectives of the seminar are also accepted.

Publication Details

The research papers are subject to screening by the editorial board and peer-review committee. The selected papers will be published as a **book** with **ISBN by Himalaya Publishing House (HPH)**.

If papers are selected for publication, the publication cost will be intimated later and the hard-copies of the book will be sent through post. All rights to the publication of the papers included in the conference shall rest with the conference organisers and editors.
