

### **MoU Signing with SWELECT HHV Solar Photovoltaics Pvt. Ltd., Coimbatore.**

The Centre for Energy Studies entered into a Memorandum of Understanding (MoU) with SWELECT HHV Solar Photovoltaics Pvt. Ltd. on 26 November 2025. SWELECT is a leading provider of Solar, Wind, Energy Storage Systems (ESS), EPC, O&M, and IPP solutions, serving corporate, industrial, and residential sectors. This collaboration strengthens the academia–industry interface by creating opportunities for students and faculty through practical exposure and fostering innovation in the renewable energy sector.

#### **Key objectives of the partnership include:**

Enhancing student employability through practical training, internships, and real-time renewable energy projects.

Enabling joint research and knowledge exchange, particularly in solar panel recycling.

Promoting innovation and strengthening industry–academia knowledge transfer.

This partnership marks a significant step toward promoting experiential learning, developing future-ready professionals, and contributing to advancements in the renewable energy industry.
